## Description

- Customized solution according to plant layout and requirement of automation
- Small block system consists of block stacker shuttle , pop-up and telescopic conveyors to feed blocks on circular machines
- This will help to reduce the touch points and no need to roll out the blocks on floor from vertical cutting to circular machine, results improving yield

## Technical Details

### Specification

<b>Block Loading To Circular</b>	<b>Through telescopic conveyors</b>
<b>Design</b>	<b>Customized</b>
<b>Max Block Size</b>	<b>78X84 Inch</b>
<b>Pop Up And Stacker</b>	<b>Pneumatic pop-up and electric stacker</b>
